

IMTIC '2023

7TH INTERNATIONAL MULTI-TOPIC ICT CONFERENCE

May 10-12, 2023

IMTIC'23 aims to bring together a wide spectrum of international experts to facilitate a creative environment for the promotion of research collaboration and knowledge transfer. It will facilitate a dialogue between major industry players, entrepreneurs, and academia for creating a road map to mutually solve scientific problems

IMTIC'23 welcomes contributions in the following areas but not limited to:

INFORMATION TOPICS

- Autonomous/multi-agent systems
- Big data analytics
- Cloud computing & emerging web
- Computational biology
- Computer systems
- Cyber physical systems
- Cyber Security
- Data Sciences
- Energy management
- Grid computing
- Human computer interaction
- Multimedia information systems
- Security, privacy, and trust
- Service-oriented computing
- Neural networks

COMMUNICATION TOPICS

- Bioinformatics
- Internet of Things
- Information systems
- Mobile adhoc networks
- Optical communication
- Photonics integrated circuit
- Signal processing
- Social networking
- Vehicular adhoc networks
- Wireless communication
- Wireless sensor networks
- Wired networks

RELATED TECHNOLOGICAL TOPICS

- Biomedical and health
- Electronic systems and devices
- Model checking and model-based diagnosis
- Power electronics
- Positioning, localization & tracking
- Robotics
- Sub-6GHz cellular
- Space technologies, e.g. cubesats, satellite
- Simulation and modelling
- Spatial and temporal databases
- Wireless LANs, IoT and M2M
